

## MODULAR AND CONFIGURABLE WIPES CONVERTING SYSTEMS

The Clipper series offers interfolded and non-interfolded flat pack wet wipes. Patented technology allows interconnection of clips to make pop up stacks. It offers quick changeover wetting and folding modules with the flexibility to accommodate virtually any flat-pack format. Utilizing the latest Rockwell drives and controls allows for a low maintenance state-of-the-art design. These machines are modular and will grow with your business to increase capacity and productivity.

### Key Advantages

---

- Compact machine designed to grow with your business
- Quick changeover wetting and folding stations maximize up-time
- Flexible - accommodates virtually every flat-pack format
- Rockwell drives and controls
- Versatile - runs a wide range of materials
- Count versatility allows for running a wide range of jobs - frequent changeovers or extended runs
- Production - reliable design reduces maintenance

### Options:

---

- Auto splice single unwinds
- Web guides
- Patented stack adhesion technology
- Additional unwinds

## CLIPPER SERIES SPECIFICATIONS

<b>Cut-off Length</b>	102 mm - 304 mm (4" - 12")
<b>Maximum Web Width</b>	320 mm (12.6")
<b>Folded Sheet Width</b>	77 mm - 160 mm (3" - 6.3")
<b>Fold Type</b>	Z, C, J, V-Z, W-Z, W and others
<b>Fold Format</b>	Interfold/Non-Interfold
<b>Stack Height</b>	135 mm (5.3") and 165 mm (6.5")

SPECIFICATION	Rx100	Rx200	MAKO
<b>Cutting Speed</b>	600 cuts per minute	600 cuts per minute	600 cuts per minute
<b>Stacking Speed</b>	125 stacks per minute	up to 300 stacks per minute	up to 300 stacks per minute
<b>Machine Size - Typical Configuration</b>	up to 12 webs	up to 24 webs	up to 100 webs
<b>Clip Adhesion</b>	n/a	Yes, optional	Yes, optional
<b>Ribbon Thickness</b>	3 mm to 20 mm (0.120" to 0.787")		10 mm to 100 mm (0.390" to 3.9")
<b>Cutting</b>	Rotary pinch cutoff		Dual orbital blade
<b>Wetting</b>	Hygienic and Non-hygienic designs
